Your candle requires 2 D type  
alkaline batteries (sold separately)  
to achieve maximum battery life  
up to 1000 hours of candlelight.

2. To open battery compartment, turn the cap's upside down, push it inward and pull up.
3. Insert 2 D type batteries into the compartment in the proper polarity as shown (fig. 4).
4. Close the battery compartment.

To clean your candle, use a soft, dry cloth.

1. Slide switch to "ON" position to turn candle on.
2. Slide switch to "OFF" position to turn candle off. (iii) 2)

1. Slide the switch to the "TIMER" position to activate the timer and turn the candle on (i.e., 2). The candle will automatically turn off after 5 hours.
2. The following day, if the switch settings have not been modified, the candle will automatically turn on at the same time that it was set on the previous day, and then will turn off after 5 hours.
3. To change the starting time, slide the switch from the "OFF" position to the "TIMER" position at the desired start time.

## CAL-TGN

- This product is a flameless candle. To avoid fire hazard, do not light the wick.
- This flameless candle is made of real wax. Do not place near any heat source that could cause wax to soften or melt.

- Place the flameless candle on a protective base to avoid wax or oil deposits.
- Failure to insert batteries in the correct polarity, as indicated (Fig. 1), may shorten the battery life or may cause them to leak.
- Do not mix old and new batteries.
- Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.
- Remove batteries if exhausted. If product is to be left unused for a long period of time.
- Do not dispose batteries in fire.
- Batteries should be recycled or disposed of as per manufacturers' recommendations.

Please note: The color intensity and shade may vary from candle to candle. Due to varying environmental factors, the color may change or fade over time.

ONE (1) YEAR LIMITED WARRANTY

The product is a pre-mixed solution that has been tested in several field applications and was found to be safe for use in the following situations:

- **Painted Surfaces:** The product is safe for use on all types of painted surfaces, including interior and exterior walls, ceilings, and trim.
- **Unpainted Surfaces:** The product is safe for use on all types of unpainted surfaces, including concrete, masonry, and metal.
- **Plaster and Stucco:** The product is safe for use on all types of plaster and stucco surfaces.
- **Brick and Block:** The product is safe for use on all types of brick and block surfaces.
